Dear Sir:

Subject: Appeal – RTI Application No. 16(7)/UD/JNNURM/2006/1316

In the above RTI request, I had requested for a copy of the Delhi CDP. The request was declined on the grounds that the CDP would be made public only after the Government of India accepts it. The appeal is against this response.

In the same response, I was informed that the CDP was finalised after a single consultation with civil society organisations which was held on 8th September 2006. The inputs from that consultation went into making the CDP. We were told that there would be one more round of consultations to discuss the CDP but there were no such consultations.

Ideally, a CDP should be finalised only after consultations have been carried out with all stakeholders. The spirit of the consultations is lost if the CDP is made public only after the GOI accepts it.

I request you to encourage dialogue and discussion over the CDP by requiring it to be made public under this RTI request. I trust you will see the merit in my argument.

Yours sincerely,

I understand that M/s. IL & FS, Eco Smart Ltd. was contracted out the work of preparing the CDP for Delhi. Kindly provide the following information in this regard:

1. What was the process of selecting the private company?
2. Which were the other companies that pitched for the contract?
3. What were the bids of the other companies?
4. What were the factors that were in favour of IL & FS?
5. In spite of having planning departments in the Government, why was the work contracted out to a private entity?
